02 PROFESSIONAL SUMMARY

I'm a web developer and I've been building and maintaining websites since 2016 for clients in healthcare, education, energy and ecommerce. I work independently and through long-term agency collaborations: I pick a project up at design handoff, take it to launch, and stay on afterwards for maintenance and support.

I build custom WordPress sites—my own themes and plugins in PHP—, adapt and extend Shopify stores, and connect sites to third-party services through REST APIs. Always on clean code of my own, never limited to what a template ships with.

Clients stay. Two of my collaborations have run for more than seven years. That isn't luck: I communicate clearly, I deliver on schedule, and I own the site long after it goes live.

2016 – PRESENT
REMOTE

Web Developer · Freelance

Independent web development for clients across multiple industries, covering the full lifecycle of a website: implementation, launch, maintenance and ongoing support.

- I build responsive websites from design files, with careful attention to layout fidelity across devices and browsers.
- I develop WordPress sites end to end: child themes, Elementor builds and plugin customization in PHP.
- I customize Shopify stores: theme adjustments, Liquid templates and storefront features for ecommerce clients.
- I integrate REST APIs to connect websites with external platforms and services.
- I handle bug fixing, ongoing maintenance and technical support, keeping client sites stable and up to date.
- I work fully remotely with international clients, coordinating asynchronously across time zones.

2017 – PRESENT
REMOTE

WordPress Plugin Developer · Etruel Developments LLC

Long-term collaboration on the development and support of commercial WordPress plugins, including WPeMatico, used by thousands of sites worldwide.

- I develop and maintain plugin features in PHP and JavaScript within the WordPress plugin architecture.
- I diagnose and fix bugs reported by real users in production environments.
- I provide technical support, helping customers resolve configuration and compatibility issues.

2018 – PRESENT
REMOTE

Frontend Developer · TUNET Digital Agency

Frontend development for the agency's international client portfolio, spanning corporate, education, healthcare and ecommerce projects.

- I implement corporate websites and landing pages from approved designs, in WordPress and custom builds.
- I deliver projects for schools, clinics and online stores, adapting each build to the client's industry needs.
- I collaborate with designers and project leads to ship consistent, polished frontend work on schedule.

HEALTHCARE

EDUCATION

CORPORATE

SOFTWARE

ENERGY

CONSTRUCTION

FITNESS

LEGAL

BEAUTY

LOGISTICS

NON-PROFIT

NEWS & MEDIA

Fundación Todo Por Los Niños

FRONTEND DEVELOPER · NON-PROFIT

Bilingual site for a foundation raising funds for children in South Florida and Venezuela. It presents the annual golf tournament, sponsorship packages and donation paths, with content editable from its own admin panel.

NEXT.JS · PAYLOAD CMS · TAILWIND CSS

Colegio IDEA

FRONTEND DEVELOPER · EDUCATION

School website built for parents and students, with clear navigation across academic levels, enrollment and institutional content.

WORDPRESS · ELEMENTOR · JAVASCRIPT

Eurogems

FRONTEND DEVELOPER · ECOMMERCE

Fine Italian jewelry store in Miami: an 18-karat gold catalog with product pages, cart and appointment booking for personal service, on an elegant layout that lets the photography speak.

WORDPRESS · WOOCOMMERCE · PHP

WPematico

PLUGIN DEVELOPER & SUPPORT · SOFTWARE

Commercial WordPress plugin that auto-publishes content from RSS feeds. Feature development, fixing bugs reported in production, and direct customer support.

PHP · JAVASCRIPT · WORDPRESS

SmartPower

FRONTEND DEVELOPER · ENERGY

Corporate website for an energy solutions company, presenting services and products with a responsive, professional layout.

WORDPRESS · ELEMENTOR · CSS3

AC Next Level

FRONTEND DEVELOPER · SERVICES

Website for a US air-conditioning company: equipment catalog, installation services and direct contact, with a clean home page that gets to the point.

WORDPRESS · ELEMENTOR · WOOCOMMERCE

SIOCCA

FRONTEND DEVELOPER · CONSTRUCTION

Bilingual site for a Venezuelan construction firm: civil works, metalwork, electrical services, procurement and equipment rental, laid out so every service line reads at a glance.

NEXT.JS · REACT · TAILWIND CSS

PARTITRUCK

FRONTEND DEVELOPER · ECOMMERCE

Online truck-parts store in the US, with a large catalog by brand and category, search, wishlist and cart built so the right part is found fast.

SHOPIFY · LIQUID · JAVASCRIPT

mdphoy.com

FRONTEND DEVELOPER · NEWS & MEDIA

Mar del Plata news portal with city, politics, sports, entertainment and opinion sections. It publishes daily, so the layout favors fast reading and image-heavy pages that still load quickly.

WORDPRESS · PHP · CSS3

And 7 more —Sisbrill USA, Lilileyba, Instituto RIO, Alianza Preschool, El Conurbano, Bespa Autoelevadores and Infopuerto— at manuelge.vercel.app/en/work.
